

Advanced Techniques for Plastic Metallization

Bilbao, 2009/06/02

PROGRAM

- 08:30 Registration
- 09:15 Opening by José Miguel Erdozain, General Director of IK4 Research Alliance.
- 09:30 “Decorative PVD metallization of plastics: the environmental friendly alternative for chrome plating”, Carlos Ribeiro, HARTEC.
- 10:15 “Spectroscopic study of surface modification in plastics and its influence in metallization”, Ignacio Jiménez, ICMM-CSIC.
- 11:00 Coffee break
- 11:30 "Tendencies in chrome plated processes in plastic materials", Ernesto Salazar, ATOTECH.
- 12:15 “Decorative coatings for plastics obtained by the combination of vacuum and traditional processes”, Javier Barriga, TEKNIKER-IK4.
- 13:00 Lunch
- 15:00 "Advances in direct metallization of plastics", Lathe Jones, CIDETEC-IK4.
- 15:45 "Vacuum metallisation of plastics: between idea and business", Cor Schrauwen, TNO.
- 16:30 Closure
